

*Give students an understanding of symmetry by creating symmetrical art.*

## Materials Needed

### 1. Symmetrical Accent Cards:

- Large Accent Cards such as  
T-10009 Friendly Frogs  
T-10053 Smiling Spider  
T-10907 Stars Smiles

### - Mini Accent Cards:

- T-10504 Frog
- T-10562 Spider
- T-10801 Stars

### 2. Scissors

### 3. White paper

### 4. Glue stick

### 5. Crayons, coloured pencils or felt tip pens

1. Select Accent Cards that are symmetrical in design. Several different designs allow students a choice.
2. Cut the Accent Cards in half, so that each student will have at least one piece.
3. Allow students to choose their desired Accent Card.
4. Using a glue stick, glue the half accent to a piece of white paper. Glue the accent so there is room on the paper for drawing the missing part of the Accent.
5. Use similar colours to draw a symmetrical image of the accent to create a whole image.
6. Challenge students to use their creativity to enhance the rest of the page with more symmetrical designs.
